List of Perfumes For The Marxist Innate Group

April 27, 2025

The classification of perfumes for the innate Marxist group was carried out by us (authors of this website and typology) subjectively, taking into account our experience and knowledge of typology.

Perfumes have historically been invented by people for the purpose of pleasing themselves and loved ones with a pleasant scent that you find pleasing. Of all possible perfumes, perfume is the most persistent because it contains a higher percentage of essential oils. Toilet water and colognes are milder and less persistent because of the smaller amount of essential oils in them. Perfumes, of course, also come with synthetic fragrance ingredients, due to the fact that some odors are difficult to extract in nature. Therefore, in truth perfumery is an art. Each perfume can have its own image and create an atmosphere that is not like the atmosphere of other perfumes. That is why we have created this typological list.

The purpose of the classification is to show the relationship between certain odors and innate groups, temperaments, types, and even types age. This page is an extension of the page *"A Typological Classification Of Perfumes For Innate Types"*.

All perfumes on the market are sold to all people without exception. Therefore, our list is not a recommendation for you. You you can choose any perfume you want.

How Did We Do This Classification?

Fragrances are classified by us manually and subjectively, according to our knowledge of **innate types of thinking** and according to **innate temperament** (sanguine, choleric, phlegmatic and melancholic) defined by us and **theoretical types age** (young, middle, old).

We did not classify perfumes and scents by gender. If you want to know whether a particular perfume is created for men, women or unisex, you will have to look for this information on the manufacturers' websites.

Please be aware of the fact that we do not sell these perfumes. Also, we do not cooperate with or represent these brands. The list includes perfumes, toilet water, and colognes.

Slide the image of the Marxist left to right.

"To be respected, needed and unforgettable in society is a credit to the individual himself."

The Motto of the Marxist group.

Search fragrance by brand or name (if you know it)
